1. Homework has a positive impact on average (+ 5 months), particularly with pupils in secondary schools.
2. Some pupils may not have a quiet space for home learning – it is important for schools to consider how home learning can be supported (e.g. through providing homework clubs for pupils).
3. Homework that is linked to classroom work tends to be more effective. In particular, studies that included feedback on homework had higher impacts on learning.
4. It is important to make the purpose of homework clear to pupils (e.g. to increase a specific area of knowledge, or to develop fluency in a particular area).

	Group 1 English Maths Science	Group 2 Non-Practical Subjects	Group 3 Practical Subjects
KS3	1 per fortnight	2 per term	Optional

These are minimum expectations.

Homework should be no longer than 45 minutes.

Non completion.

Achieving Together

Research has proven that on average students gain an additional 5 months of progress compared to children who do not complete homework.

Letter to Parents

Dear _____

Unfortunately, _____ has failed to complete his homework so will be required to attend a one hour homework detention after school on _____ to complete them in room 110b.

We strongly believe Homework has an impact by enabling _____ to undertake independent learning to practice and consolidate skills, conduct in-depth inquiry, prepare for lessons or revise for exams.

We know research has proven that on average students gain an additional 5 months of progress compared to children who do not complete homework.

Thank you for your support.
